Centura™

T I M E L E S S S T Y L E

The Raynor Centura adds instant curb appeal to any home. But appearance is only half the story. Superior engineering makes timeless Centura doors as dependable as they are stylish.

Centura doors are available in 3 standard and 11 optional door designs. Please see pages 6-7 for design choices.

2" Thick Sections

Centura's 2" thick door sections are made from strong, rust-resistant, 24-gauge embossed galvanized steel and are coated with a baked-on polyester paint finish for long life.

- ① Baked-on finish ② Epoxy primer
- ③ Galvanized layer ④ High-strength steel
- ⑤ Polyurethane insulation ⑥ High-strength steel

Carriage House Panel Option

Colonial embossments are spaced for a carriage house look. Add optional decorative hardware to complete the look. See page 7 for details.

CENTURA™

Centura Features

B U I L T T O B E W O R R Y F R E E

18' x 7' Centura Highcrest with standard White Interior Finish and Cascade Colonial and Ranch Snap-In Windows

Insulation, through our innovative process, fills 100% of the door's interior

space. The energy-saving polyurethane core delivers an exceptional 18 R-value and helps to reduce noise.

Thermal protection, provided by a continuous thermal break (A), prevents heat loss

and metal-to-metal contact between inside and outside surfaces. An air seal (B) blocks airflow between sections.

Finger protection is important to today's homeowner. As your door closes, the

exclusive Raynor Finger Protection System™ gently pushes fingers away from section joints.

① **Door sections** are constructed from hot-dipped galvanized steel and coated with a baked-on, fade-resistant polyester finish for maximum durability, rust-resistance and color retention.

② **Rollers** with steel wheels and ball bearings provide smooth, quiet operation.

③ **Springs** are designed to precisely match each door's weight for proper balance and smooth operation.

④ **Cable attachments** prevent accidents and injuries. The tamper-resistant counterbalance cable attachment cannot be released while the cable is under tension.

⑤ **Hinges**, made of high-quality steel, feature an attractive, low-profile design and are powdercoated white to provide maximum protection against rust.

⑥ **Vinyl weatherseal** along the bottom helps keep out wind and rain while an optional perimeter weatherseal creates a seal along the exterior top and sides of the door.

⑦ **Track** is adjustable so that the door always fits tightly against the door opening, preventing energy loss.

Professional Installation

D E P E N D O N Y O U R R A Y N O R D E A L E R

When you select Raynor, you're not just getting a superior garage door — you're also getting professional garage door installation and service expertise.

Every Raynor garage door is installed by a trained Raynor professional. And that means added benefits for you. First, you won't have to deal with it yourself. And because it's done right the first time, your door will deliver performance and reliability from the day it's installed.

Your technician will check your door for everything from safety to performance to appearance. Trust your Raynor garage door to someone who knows it better than anyone else — your professional Raynor Dealer.
